SUMMARY

My goal; related to computer-based information systems, together with practical solutions and analytical thinking ability. to specialize and to take innovative initiatives in senior positions. I will be able to develop far from classical solutions for the benefit of companies.

I enjoy working in areas where I can make a difference with systems.

HOBBIES

Playing basketball and football, watching football matches. (I went to 12 Giant Man Basketball Schools course)

Listening to electronic music.

Morning walks in nature.

Making domestic and international trips with my family.

To follow technological news. (I worked at Technology Club at my university.)

EXPERIENCE

January 21 - February 23

WORK

TİTRA TEKNOLOJİ A.Ş.

I worked as a Full-Stack Developer in the Public Health Management System Project at Republic of Turkey Ministry of Health from January 2021 to February 2023.

February 19 - January 21

WORK

SBI BİLİŞİM A.Ş.

I started working as Front-End Developer, continued as Full-Stack Developer. I took part in both the front-end and back-end sides of Rasad, Sparta, Triot, İnsibat projects. In January 2021, the company changed its name and became Titra Teknoloji A.Ş. as continued.

August 17 - September 17

INTERNSHIP

ARÇELİK A.Ş.

I completed my internship at the university for 1 month at ARÇELİK A.Ş. I did it in R&D Software Application department of the TV factory of the company. I worked on the front-end and mobile software sides.

July 16 - August 16

INTERNSHIP

KARDEMİR A.Ş.

I completed my internship at the university for 1.5 months at KARDEMİR A.Ş. I worked in the Information Technologies department of the company. I worked on the back-end and front-end sides.
